**Are you looking for a safer alternative to traditional plastic trash can liners?**

Look no further! Sani-Liner® is here to revolutionize your waste management practices with its unique features tailored to meet the needs of healthcare facilities, especially in mental healthcare settings.

## Why Choose Sani-Liner®?

### Safety First

- Constructed with a 40# custom engineered kraft paper.
- Adhesive pinch bottom ensures strength and durability.
- Porous, unbleached natural kraft paper for breathability.
- Reduces the risk of suffocation fatalities compared to plastic liners.

### Medically Tested

- Sani-Liner® has undergone medical testing.
- Found to pose no threat to patient health and safety.
- Compliant with healthcare regulations.

### Labor Savings

- Designed to roll over the top of wastebaskets without tearing.
- Maintains its integrity even with damp materials.
- Eliminates the need for frequent trash container scrubbing.

### Eco-Friendly

- 100% recyclable and biodegradable.
- Ideal for businesses and homes aiming to reduce plastic waste.
